

ANZDATA New Patient Registration

Patients are registered when they are diagnosed with end stage kidney failure requiring kidney replacement therapy.

- (1) The first time a patient receives Dialysis or a pre-emptive Transplant.
- (2) Transfers from overseas with a functioning Graft.

Form
NR

Physician

Initial Parent Renal Unit *

Initial Facility *

Initial Parent MRN *

Initial Facility MRN *

Surname *

Given Name *

Date of Birth *

Gender *

Country of Birth

Ethnicity 1

Ethnicity 2

Primary Kidney Disease

Biopsy

Late Referral

Creatinine At Entry

Height

Weight

Cigarette Smoking (at entry)

Yes/Former/Never

Genetic Test¹

Yes/No

Causative Gene²

¹ Was there a genetic test performed for investigation of the patient's underlying primary kidney disease?

² Please refer to back of form for location of code list

PKD Diagnosis from Test³

Yes/No/Unknown

³ Did the test give you a diagnosis for the underlying primary kidney disease?

[See ERA Registry coding and search tool for assistance with primary kidney disease codes](#)

Initial Treatment Date

Treatment Type

If Haemodialysis

Access at First HD

If Peritoneal Dialysis

First PDC – Date of Insertion

If Transplant

Referring Facility

Transplant Facility

Donor Source

Chronic Lung
Disease

Coronary Artery
Disease

Y – Yes

N – No

S – Suspected

Peripheral Vascular
Disease

Cerebro-vascular
Disease

Postcode

Diabetes

Type 1 or 2
Insulin or Non

Cancer Ever

If Yes, cancer
form is required

Other Co-Morbid Conditions

Hep C
Antibody

Calciphylaxis Episode

If Yes, date is
required

Was this patient a living kidney donor prior to ESKF?

Yes/No/Unknown

**Please refer to back of form for coding requirements*

FOR PRIMARY KIDNEY DISEASE CODES:

Please refer to separate codes list: **Appendix 1 – Primary Kidney Disease Codes**

This is available for download on our website or upon request from The Registry

[Appendix-1-Primary-Kidney-Disease-Codes_202212.pdf](#)

FOR CAUSATIVE GENE CODES:

Please refer to our Webservices:

<https://services.anzdata.org.au/webservices/Codes/index/codeCausativeGene>

You will be able to export/download this list using the CSV link

DIABETES

Code	Description
N	No
O	Type 1 - Insulin Dependent
P	Type 2 - Non-Insulin Requiring
Q	Type 2 - Insulin Requiring

HEPITITIS C ANTIBODY

Code	Description
1	Positive
2	Negative
3	Not Done

SMOKING STATUS

Code	Description
C	Current
F	Former
N	Never

TREATMENT CODE

Code	Description
B	Hospital HD
D	Satellite HD
F	Home HD
Y	HD Community House
E	APD/IPD
EB	APD/IPD Hybrid (with Hospital HD)
ED	APD/IPD Hybrid (with Satellite HD)
M	CAPD
MB	CAPD Hybrid (with Hospital HD)
MD	CAPD Hybrid (with Satellite HD)
G	Transplant in AUST/NZ
X	Transplant Overseas

HD ACCESS

Code	Description
1	Native
2	Synthetic
3	Tunnel CV Catheter
4	Non-Tunnel CV Catheter
