

The registry is located
in Adelaide
South Australia

What is the Australia and New Zealand Lung Transplant Registry

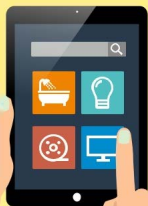

*People who look
after kids with
lung disease
needing a
transplant got
together*

*ANZLUNG uses this information to
help answer questions about
lung transplants*

Your hospital
team tells the
registry about
your lung
condition and
operation

These bits of
information are joined
together in a computer

Answering these
questions can
help your
hospital team
provide care for
kids needing a
lung transplant
